Gramm-Leach-Bliley Act Background Clearance Compliance

Association of
Professional Notaries
& Certified Signing Agents

California Notary Public

In accordance with the laws of California directing the issuance of notary commissions and whereas such laws require as a matter of due process all notary applicants upon seeking commission or subsequent commission terms, all such persons satisfactorily submit to and pass a criminal background investigation by the State of California Department of Justice and the Federal Bureau of Investigation, this statement of clearance represents that a valid California notary commission of the individual named on the notary commission is prima facie evidence that the individual named has satisfactorily completed the required criminal history background clearance procedure and has met the background clearance requirements issued by the state of California. Whereas the State of California requires California notaries public to satisfactorily pass such individual background clearance investigation prior to the granting of each and every notary commission, this statement of background compliance is valid in duration of the California notary commission term and may be used for whatever purpose is required.
